Conference Overview

Each year, the Down Syndrome Guild of Dallas' annual conference brings together members of the community to learn from our collective accomplishments, and the expertise of professionals. This conference acts as a platform to share cutting-edge developments and information from specialists in their respective fields, as it relates to Down syndrome and other intellectual disabilities. You'll experience first class presenters and hands on sessions full of information you can take back to your homes, businesses and classrooms and use immediately including:

- Differentiated instruction and brain-based learning
- Creative uses for technology
- Strategies that support inclusive classrooms
- Making math accessible for all students
- Goal setting and independence during and after transition
- Building and strengthening collaborative relationships

Who should attend?

Parents, educators, medical professionals, service providers, direct care staff, and advocates are all encouraged to attend. Our goal is to provide attendees with practical information and tools to help individuals with Down syndrome and other intellectual disabilities be independent and lead productive, fulfilling lives.

Resource Fair

The conference also provides a great opportunity to network with fellow participants and to shop the resource fair for products and information that will help support people with intellectual disabilities both at home and at school. Be sure to stop by the Down Syndrome Guild of Dallas table to find out more about our programs and resources available.
